

Independent Expertise in Waste
Not a waste collector but your waste department

Put simply, we know what works and what doesn't

Today – more than ever before – organisations need to maximise the cost-effectiveness of every business function; without neglecting their environmental obligations.

Most companies do not have their own internal waste department, unknowingly sacrificing huge potential savings in their waste removal processes. At Vantage our flexible approach to waste management allows us to fulfil this role on your behalf, bringing a level of expertise that guarantees a world of benefits.

We go the extra mile to secure you savings in time, money, and hassle, whilst assuring you comply with EU legislation and surpass your recycling targets.

Our dedicated account management team make it their job to get to know your business better. We develop carefully considered solutions to build made-to-measure waste management programmes – delivered through a fully transparent and completely unique business model.

As a completely independent company, we are a rare commodity; overseeing your waste removal processes and offering impartial, expert advice no matter where your sites are located.

Our unique business model means that – irrespective of waste stream or quantity – we charge a fixed monthly management fee, whilst our fully transparent approach to invoice processing and contractor relations gives you full visibility of the whole waste removal process.

Environmentally responsible solutions that save you money and guarantee peace of mind

We are proud to offer a specialist recycling consultation service, which is designed to advise clients interested in taking a more environmentally sound approach to waste management. We help with the implementation and ongoing management of cost-effective, environmentally responsible waste disposal solutions that can save you money.

With our extensive knowledge of the recycling industry, our recycling arm can arrange and monitor the recycling of any waste streams, from any sites nationwide... and as we know which materials are in demand, we can command the best prices for them – passing these savings or rebates back to you.

Vantage Benefits:

- **Savings in time and money**
- **Hassle free service**
- **Legislatively compliant**
- **Full control and monitoring**
- **Client focused solutions**
- **Independent expertise**

Acting as your own specialist waste department, our unique approach to waste management means the creation of bespoke solutions, specifically tailored to address the different requirements of your sites. We often introduce waste removal plans using multiple contractors – assuring you the best mix of service and expertise at the most competitive prices.

Our team of account managers are highly trained to offer you guidance and advice to ensure your ongoing compliance with changing EU Legislations.

You can rest assured the smooth implementation of our commercially focused waste management plans will save you time, money, and hassle.

Offering tailored solutions that fit your requirements, and with a complete service at your fingertips, Vantage is your one-stop solution for all your waste needs.

A refreshingly different approach to waste management

Vantage is an independent waste management and consultancy service with a difference.

Drawing knowledge from over 35 years of experience in the waste industry, we are a thriving family company specialising in the implementation and management of bespoke waste management solutions that guarantee savings to your waste removal processes.

At Vantage we are fiercely proud of our independence. Our recommendations aren't influenced by partnerships or alliances – we don't have any – our only agenda is to save money, time and hassle for you.

Read on to find out more about our refreshingly different approach to waste management.
